Experience

- Title **Apple AI/ML, Machine Learning Engineer** [May'22-Present]
Multimodal large language models
- Description Core author on [MM1: Methods, Analysis & Insights from Multimodal LLM Pre-training](#) and [MM1.5: Methods, Analysis & Insights from Multimodal LLM Fine-tuning](#). Led the implementation and benchmarking of image-text interleaved Supervised Finetuning pipeline for MM1. Led the multi-image finetuning efforts for MM1.5. Working on core capabilities for in-house multimodal foundation models, specifically high resolution data pipelines, multi-image inputs and in-context learning.
- Title **IBM Research, AI Automation Group** [2021-22]
Fast Scalable Image Stitching for High-Resolution Construction Scans [[Patent](#)]
- Description Developed an image-stitching algorithm achieving a 30x speed increase, enabling the processing of over 100 high-resolution images in under 5 minutes. Leveraged efficient detection and image registration techniques to accurately localize defects on high-end civil engineering structures. Addressing the costliness of defect data collection, devised a semi-supervised tool for accelerated annotation of high-quality visual data.

Education

- 2019–2022 **Masters in Data Science, EPFL, 5.34/6.0.**
Master Thesis at **IBM Research**
Advised by Prof. Rudiger Urbanke (EPFL) and Cristiano Malossi (IBM Research)
Conducted research in areas of Machine Learning and Computer Vision.
- 2014–2019 **Bachelors + Masters in Electrical Engineering, IIT Bombay, 9.30/10.**
With Minor in Computer Science.
Institute Gold Medalist (Shankar Dayal Sharma) – First amongst 900 graduating students for general proficiency, both academic and extra-curricular.

Technical Strengths

- Languages Python, C++, C, Go
Frameworks Jax, Pytorch, Tensorflow

Leadership and Volunteering

- Contingent Leader, Inter IIT sports meet, IIT Bombay.**
First ever female contingent leader of the gold-winning IIT Bombay team of 150 athletes.
- Volunteer, Empowerment Lab, EPFL.**
Tutor at Empowerment Lab, mentoring young school-girls in data science and machine learning.
